

"WALKING IN NATURE AND HISTORY"

We will learn about the nature and history of Iano, the Palagio and their suggestive territories that in the Middle Ages were the scene of bloody battles.

We will climb to the Stone and to the Sanctuary of the Pietrina, in search of the remains of their castles, made impregnable by the steep walls of the Mazzo del Becco, yesterday a natural defense against enemy attacks and today a climbing school. We will descend into the magical atmosphere of the Panera Rossa, surrounded by lush vegetation and accompanied by the relaxing flow of water.

A pleasant walk among the magic of uncontaminated nature, breathtaking landscapes and deeply rooted historical testimonies that will bring adults and children to live an enchanting and mystical experience.
